

REMARKS

Claims 8, 9, 10, 78 and 80 have been amended. Claims 9 and 10 are amended to correct minor grammatical errors and are the same amendments as previously made to claims 1 and 2 to correct the same errors.

Claims 8, 78 and 80 are amended to correct an error entered in the Examiner's amendment of March 29, 2005, in which the amended claims are drawn to regulatory elements contained in SEQ ID NO:1 in a region extended from position 1 through 1031. Applicant finds no reason to limit the claimed sequences to a region ended at residue 1031, and none was stated in the Reasons for Allowance. Rather, as shown in Figure 1, the claimed regions should extend through residue 1092.

If the Examiner has any questions or comments regarding this amendment, he is invited to contact the undersigned representative at 512.542.8504.

Respectfully submitted,
